RHVAC Indonesia & Cleanroom Indonesia Expo 2026

Refrigeration & HVAC Indonesia 2026, held alongside Cleanroom Indonesia Expo 2026 at NICE, PIK 2, brought together technology providers and industry professionals across refrigeration, HVAC, cold chain, and cleanroom applications. Through product showcases, seminars, technical presentations, and business networking, the exhibition explored sustainable cooling, air quality, and cleanroom performance while fostering knowledge exchange, connecting prospective buyers with exhibitors, and creating business opportunities that extended beyond the three-day event.

Supported by

EXHIBITOR ANALYSIS

Number Of Exhibitors

218 Exhibitors from 15 Countries

China | Hongkong | Indonesia | Thailand | Italy | Japan | Malaysia | Singapore
South Korea | Taiwan | United Arab Emirates | United States (USA) | Vietnam
Germany | India

Top 3 Exhibitor Business Outcomes

The most frequently reported outcomes highlighted opportunities for buyer engagement, continued business discussions, and on-site sales.

01. Connecting with Prospective Buyers
Engaged with visitors expressing buying intentions.

02. Generating Follow-Up Opportunities
Received buyer requests to continue discussions after the exhibition.

03. Closing Sales On Site
Secured sales during the exhibition.

Exhibitor Satisfaction and Event Performance

90% Overall Visitor Volume	97% Networking Opportunities	97% Organizer Service Quality and Responsiveness
97% Pre-show Marketing and Promotion	98% Would Recommend the Exhibition	98% Interest in Returning for the Next Edition

Top 10 Business Profile

- Contractors and Project & Design Engineering
- Refrigeration, Chiller and HVAC Contractors
- Cold Storage, Transportation and Distribution
- Manufacturer, Distributors and Suppliers
- Clean Room Equipment
- Cleanroom Construction, Engineering & Services
- Pharmaceutical & Biopharmaceutical Manufacturing
- Food & Beverage Processing (High-Hygiene Segments)
- Chemicals, Cosmetics & Personal Care
- Hospital, Healthcare & Clinical Facilities

Top 10 Main Product Interest

- Air Conditioners
- Central Air Conditioning Plants
- Refrigeration Systems and Plants
- Air Filtration and Purification
- Variable Refrigerant Flow (VRF) Air Conditioners
- Pipes and Piping System
- Control Equipment for Intelligent Buildings
- Air Handling Units (AHUs) for Cleanrooms
- HVAC Systems with HEPA/ULPA Integration
- Temperature and Humidity Controllers

Top 5 Purpose of Visit

- Gather Information
- Visit Supplier
- To Purchase
- Evaluate for Future Participation
- Seek Representation

KNOWLEDGE EXCHANGE AND TECHNICAL HIGHLIGHTS

RHVAC Indonesia & Cleanroom Indonesia Expo 2026 successfully hosted seminars, workshops, technical presentations, and the ASISI competition and competency test, advancing industry knowledge and practical skills.

TECHNICAL PRESENTATION

15 technical presentations delivered practical insights and technology updates across refrigeration, HVAC, cold chain, and cleanroom applications.

- BITZER COMPRESSORS INDONESIA, PT : Efficient Refrigeration with BITZER Ammonia Compressor Packs
- BITZER COMPRESSORS INDONESIA, PT: Bitzer Interlligent Products Simulation
- DAXTRO: Daxtro as a Brand and the Future of Ice Technology Industry
- SUMBER MANDIRI, PT: One Stop Solution HVACR Parts & Business
- BRENNTAG, PT: Lowering the Carbon Footprint with Solstice HFO Refrigerant
- FLIFE TECHNOLOGIES INDONESIA, PT: Integrated HVAC Solutions Across Industries, Enhancing Productivity, Energy Efficiency and Operational Reliability
- INDONESIA PATKOL SERVICE, PT: Reduce Operation Costs in Your Ice Factory
- SUMBER MANDIRI, PT: CO2 & Muller Coolers: The Future of Sustainable Cold Chain

TECHNICAL PRESENTATION

15 technical presentations delivered practical insights and technology updates across refrigeration, HVAC, cold chain, and cleanroom applications.

- CAMFIL: Enhancing Performance and Sustainability Through Advanced Air Filtration
- SHITSHUDO THERMAL ENGINEERING, PT: Shitsudo Dehumidifier in Pharmaceutical Environment : Regulating Humidity & Preserving Quality
- ITU AIRCONCO: Precision Beyond Zero: Humidity Control for Stable Pharma Products
- BRY-AIR (MALAYSIA) SDN. BHD: Desiccant Dehumidification Technology: Enhancing Industrial Performance Through Advanced Humidity Control
- INTI SEMESTA SEJAHTERA:
  1) Chiller Condenser Protection and Savings with AHRI Performance Certification
  2) Unlocking Hidden Energy with the Suitable Heat Exchanger
  3) Alfa Laval Service Offering
- ZIEHL-ABEGG PTE LTD: Ventilation Technology from ZIEHL-ABEGG – Intelligent Air Movement
- DRYTRONICS INDONESIA, PT: Data Centers & Critical Facilities

FEEDBACK FROM PARTICIPATING COMPANIES

"RHVAC Indonesia brought strong visitor traffic from Jakarta, Tangerang, and other regions. We met potential customers across various sectors, as well as consultants and business owners seeking air-conditioning solutions. Most importantly, the exhibition helped us build valuable connections with potential for long-term business opportunities."

FLIFE TECHNOLOGIES INDONESIA, PT
Mr. Brian – HVAC Sales Engineer

"RHVAC Indonesia is a great platform to reconnect with existing customers, meet new prospects, and expand our network. It also creates valuable opportunities to connect and collaborate with stakeholders across the refrigeration industry."

BITZER COMPRESSORS INDONESIA, PT
Mr. Julaga Sinaga – Sales Manager

"Visitor enthusiasm was very encouraging, with higher attendance compared to previous years. The new venue brought a fresh experience, while the strong presence of air-conditioning brands and principals showed the industry's enthusiasm to reconnect and engage."

YONGWANG ELECTRONICS INDONESIA, PT (TCL Indonesia)
Mr. Joko Trisharyanto – Senior Sales Manager

"I would rate the exhibition 8 to 9 out of 10. The new venue brought fresh energy, and the event created strong opportunities to connect, collaborate, and build new business relationships. We look forward to joining again next year."

SELAMAT SEMPURNA TBK, PT
(SAKURA FILTER)
Mr. Rudi Soejanto – President Director

"Visitor response was excellent, especially on the final day, with business owners, end-users, contractors, and consultants attending the exhibition. The most valuable outcome for us was gaining new connections and business opportunities that we hope will grow into long-term collaborations."

BRY-AIR (MALAYSIA) SDN. BHD.
INDONESIA REPRESENTATIVE OFFICE
Mr. Dedi Sarwanto – Country Sales Head

"The visitors were highly relevant to the RHVAC industry, creating strong opportunities for collaboration. Our discussions with customers and industry professionals generated new ideas and potential partnerships that could develop into real business opportunities."

FUMIRA, PT
Ms. Anggi – Sales Department Head

FEEDBACK FROM PARTICIPATING COMPANIES

"This was our first time participating, and it was a great experience. The exhibition brought the industry together, allowing us to connect with vendors, understand their challenges, and show how our products can support their needs."

VULKAN INDUSTRIES FAR EAST PTE. LTD.
Ms. Rain Ngo – Sales Executive

"I would rate RHVAC Indonesia 2026 a 9 out of 10. The exhibition showed strong improvement, with high visitor turnout and a fresh atmosphere at the new venue. It also created valuable business opportunities, including potential collaborations for ice maker solutions in Indonesia."

SUMBER MANDIRI, PT
Mr. Handi Wirajaya – Director

"It was a great event, especially as Indonesia's market continues to grow. RHVAC Indonesia gave us the opportunity to engage with local and regional customers, and we received very positive feedback on the solutions we presented."

LUNTO PRIMA MEGAH, PT / CAMFIL
Mr. Tay Koong Woei – SEA Regional Sales Manager

"The first Cleanroom Indonesia Expo is an important milestone, reflecting the strong potential of Indonesia's cleanroom industry across pharmaceuticals, healthcare, manufacturing, food, and other sectors. It is a strategic platform for us to showcase our technologies, strengthen our presence, and connect with key industry stakeholders. We look forward to participating again next year."

OKAYA SEIRITSU ENGINEERING CO., LTD
Mr. Imbalo Oloan – Director

"We joined Cleanroom Indonesia Expo to connect with visitors actively seeking cleanroom solutions. The response was encouraging, and we were especially impressed by the quality of visitors with real needs and strong business potential. The exhibition proved valuable for generating leads and future opportunities."

MULINSEN MANUFACTURE INDONESIA, PT
Mr. Andika Prayoga – Regional Sales Manager

"We identified several promising prospects at the exhibition, including opportunities in new market segments and potential projects from both the private sector and government-led national strategic projects."

BONDOR INDONESIA, PT
Mr. Franky Endra Fatullana – Marketing & Sales Consultant

FEEDBACK FROM VISITORS

Mr. Nanang Hendra Wardhana
ASISI Nusantara

"Cleanroom AHUs used to be difficult to source, with only a few brands available. Today, the market offers a much wider selection of AHUs, filters, and HEPA filters, giving industry practitioners more options."

Mr. Aldiyansyah
PT Gudang Segar Interior Teknologi

"In my opinion, this is an excellent exhibition that should be held in Indonesia every year."

Ms. Fuji
PT Trisna Purnama Semarang

"This was my first visit to RHVAC Indonesia, and I gained valuable knowledge and insights from the exhibitors."
